ABOUT ENAR

ENAR membership is open to all interested persons living in those portions of the United States and Canada east of approximately 104° west longitude (roughly Denver, CO, in the US and Regina, Saskatchewan in Canada).

Individuals usually join as Regular or Student members. Applicants must be approved by the relevant Regional or National Secretary or, in the case of applicants for “At Large” membership, by the General Secretary. Annual dues are determined separately by each Region and Group and paid to the Regional Treasurer or National Secretary. A portion of the dues goes to the International Biometric Society to cover the cost of IBS publications.

Tangible benefits of membership include subscriptions to *Biometrics* and *Biometric Bulletin*, as well as reduced registration fees for the ENAR Spring Meeting, the Joint Statistical Meetings, and potentially other events.

The value of membership far exceeds these material benefits. ENAR provides a community and meeting place, a forum to share and document achievement, an environment for identifying and fostering the next generation of statistical scientists, and a distinct professional identity. ENAR has been a key contributor to the growth of biostatistics in all its manifestations in our Region; its very existence reflects the health of our profession and its critical importance to the future development

of the life sciences. If you have not been a regular dues-paying member of ENAR, or a regular attendee at its meetings, please consider doing so.

The ENAR Spring Meeting, held jointly with the American Statistical Association (ASA) and the Institute of Mathematical Statistics (IMS), has a broad spectrum of educational content, including invited paper sessions, short courses, tutorials, and poster sessions. Approximately 1,200 attendees participate annually.

ENAR has more than 1,500 members whose job titles include statisticians, mathematicians, biological scientists, and others devoted to interdisciplinary efforts in advancing the collection and interpretation of information in the biosciences.

PURPOSE

The International Biometric Society is an international society for the advancement of biological science through the development of quantitative theories and the application, development and dissemination of effective mathematical and statistical techniques. The Society welcomes as members biologists, mathematicians, statisticians, and others interested in applying similar techniques. By definition of the IBS, ENAR includes portions of the United States and Canada east of approximately 104° west longitude. Membership is open to all residents of this region. Journals of The International Biometric Society include: *Biometrics*; *Journal of Agricultural, Biological, and Environmental Statistics (JABES)*; and the *Biometric Bulletin*.

Meetings

Each region of the International Biometric Society holds its own program of meetings. ENAR meetings are normally held in late March or early April. The content of these events reflects the broad interests of the Society, including both quantitative techniques and application areas. Larger regional events are sometimes held, in the form of conferences. The IBS also holds a large international conference every two years.

IBS/ENAR OBJECTIVES

The stated aims of the International Biometric Society are:

- (1)** To support the advancement of biological science through the development of quantitative theories and mathematical and statistical techniques;
- (2)** To provide a forum for the scientific community to exchange ideas, information and research results related to quantitative theories and statistical applications in biological science;
- (3)** To collect, publish, and disseminate scientific information in the field of quantitative theories and statistical applications in biological science;
- (4)** To do other things necessary or appropriate to the accomplishment of any of the objects or purposes for which the Society is formed.

The Society is devoted to fostering the application of statistics and mathematics in the biological sciences. Statistical methods have contributed much to scientific advance this century, particularly in genetics, agriculture, ecology and medicine. At the same time, mathematical methods, for example recent developments in non-linear systems, have shed light on the dynamics of complex biological processes. Biometry is a fast moving field and biometricians are aiding scientific understanding in many new areas of research and technology: environmental risk assessment, DNA fingerprinting, epidemiology of AIDS, satellite remote sensing, climate change, medical imaging, drug and vaccine

design, genetic counseling, sustainable agriculture, to give but a few examples. Membership of the International Biometric Society will put you in touch with fellow researchers and practitioners and ensure that you keep up to date with the latest developments in methodology and application in the biological sciences.

The Society was founded in 1947 and is open to anyone interested in the quantitative aspects of biology. It is a truly international society with nearly 7,000 members from more than 80 countries and a federal structure of 16 regions and 14 national groups.

ENAR LEADERSHIP

2017 Executive Committee

President

Scarlett Bellamy

Drexel University
Dornsife School of Public Health

President-Elect

Jeffrey Morris

University of Texas
MD Anderson Cancer Center

Treasurer (2016-2017)

Sarah Ratcliffe

University of Pennsylvania
Division of Biostatistics

Past President

Jianwen Cai

University of North Carolina
at Chapel Hill
Department of Biostatistics

Secretary (2017-2018)

Bhramar Mukherjee

University of Michigan

Regional Advisory

Board Chair (2017-2018)

Todd Ogden

Columbia University
Department of Biostatistics

ENAR Regional Committee (RECOM)

President (Chair) Scarlett Bellamy | Nine ordinary members (elected to 3-year terms) | **Todd Ogden (RAB Chair)**

2015-2017

Paul Albert
Reneé Moore
Mary Sammel

2016-2018

Ciprian Crainiceanu
Brisa Sánchez
Melanie Wall

2017-2019

Simone Gray
Qi Long
Sean Simpson

Regional Members of the International Biometric Society

Executive Board: Karen Bandeen-Roche, Joel Greenhouse, Sharon-Lise Normand, and José Pinheiro

ENAR LEADERSHIP *(continued)*

Regional Members of the Council of the International Biometric Society —

Scarlett Bellamy, Brad Carlin, Timothy Johnson and KyungMann Kim

Appointed members of the Regional Advisory Board (RAB) | **Todd Ogden (RAB Chair)**

MEMBER BENEFITS

With more than 1,500 members within our region and access to more than 6,000 biostatisticians within IBS, ENAR facilitates networking, education, professional development, and advancement in the field of biostatistics.

Whether you practice in an academic setting, in business and industry, or a government post, membership in the society will benefit you as a professional.

When you join ENAR you will receive:

- Free online access to *Biometrics* online.
- Free online access to *JABES*.
- Free online access to *Biometric Bulletin*, which includes career opportunities, international conference listings, and news from our 30 regions.
- Access to *Biometrics* (1947 to 1998) and *JABES* (1996 to 2001) older issues for a nominal fee through our partner, JSTOR.
- Significantly reduced fees for paper subscriptions to both *Biometrics* and *JABES*.
- Discounted registration fees for the ENAR Spring Meeting and the International Biometric Conference.
- Access to all active members' contact information through the online directory.
- Discounted registration fees for participation in ENAR webinars.
- Access to members-only features of the ENAR website, including the online membership directory.
- Networking opportunities with access to more than 6,000 biostatisticians from around the world.

WEBINARS (WebENARs)

As part of ENAR's education initiative, our webinars promote continuing education for professional and student statisticians by disseminating cutting-edge knowledge to our membership.

An ENAR webinar (or "webENAR") can strengthen your background in methodology and software, provide an opportunity to learn about a topic outside of your primary area of specialization, or deepen your understanding of an area in which you already work. We invite you to participate and benefit from the expertise of some of North America's leading statisticians and biostatisticians.

The Webinar Committee of the ENAR Regional Advisory Board (RAB) is coordinating this ongoing series of 1- to 2-hour webinars given by renowned experts.

Registration fees are by membership category, with a reduced fee for student members. The webinars are planned to be broadly available and we encourage groups at your institution or workplace to participate together.

WebENARs are great opportunities for learning for students and professionals alike.

Visit the ENAR Website at www.enar.org for upcoming webinars.

ENAR FUTURE MEETINGS

ENAR 2018 SPRING MEETING
March 25-28, 2018 | Atlanta, GA
Hyatt Regency Atlanta on Peachtree Street

ENAR 2019 SPRING MEETING
March 24-27, 2019 | Philadelphia, PA
Marriott Philadelphia

ENAR 2020 SPRING MEETING
March 22-25, 2020 | Nashville, TN
JW Marriott Nashville

MEMBERSHIP TYPE

- Regular Member** **\$120** (when paid by 12/31/2017) **\$140** (after 12/31/2017)
Includes electronic access to the *Biometrics Journal*, *JABES* and *Biometric Bulletin* Newsletter
- Regular Member** **\$130** (when paid by 12/31/2017) **\$150** (after 12/31/2017)
Includes *Biometric Bulletin* Newsletter and a print subscription of one journal (choose one):
 Biometrics Journal *JABES*
- Regular Member** **\$140** (when paid by 12/31/2017) **\$160** (after 12/31/2017)
Includes *Biometric Bulletin* Newsletter and print subscriptions to *Biometrics Journal* and *JABES*
- Supporting Member** **\$30**
- Student Member** **\$20**
Includes electronic access to the *Biometrics Journal*, *JABES* and *Biometric Bulletin* Newsletter

I certify that _____ is a full-time student.

Signature: _____ Title: _____

A Regular Member, who is a member of a Region/National Group, termed Region/Group [R], may elect to become a Supporting Member in another Region/National Group, termed Region/National Group [S]. Supporting Members will pay the International portion of the dues once and pay the additional Regional dues only to Region/National Group [S]. A Regular Member may become a Supporting Member of more than one Region or National Group. A Regular Member-At-Large may also become a Supporting Member in a Region/National Group of their choice. Supporting Members may not vote or hold any office in Regions/ National Groups they support.

PAYMENT INFORMATION

- Enclosed is my **check**, payable to ENAR (Remittance accepted only in US currency)
- Please **charge** payment to: VISA MasterCard Amex
